

Room Solutions Planning Ideas

EVOLVE II

a system of furniture

Evolve II helps students balance their social and academic needs by providing adaptive, modular pieces that can move with the user as their priorities shift through the semester.

Adjustable Height Beds

that pair with Essentials Case Goods

Breton

Tool-Free

- Solid wood, modified mortise and tenon
- Bunk / Loft using steel pins
- 11 bed deck heights, 19 for Studio Loft

BRETON

strength & flexibility

The Breton bed is built to last with solid wood and a strong mortise and tenon joint. It also features a unique peg system that lets you bunk or loft the bed without tools, making it a versatile choice for your space.

GRIFFIN

affordable and reliable

Our simplest bed provides a durable solution at a low price point. Mortise and tenon construction along with stand alone accessories makes Griffin a competitive bed.

MAXWELL

timeless, contemporary

The simple, clean lines and mixed materials of Maxwell combine to create a timeless, contemporary aesthetic.

TOOL FREE

most versatile bed in the industry

Crafted from solid hardwood with mortise and tenon construction, this bed delivers reliable performance and features an innovative, tool-free height adjustment system for ultimate convenience.
